- before departure from Milan -

If you change bike for technical reasons, you must notify the Organisers by **10/05/2022**. After this date and until the technical checks, whoever changes bike will incur the penalties envisaged by the regulations (**50 points**) and will remain in the category allocated previously.

You are not allowed to change bike with a model which is not permitted by these regulations, under penalty of exclusion from the event.

- after departure from Milan -

You are not allowed to change bike with one which has not be checked in Milan under penalty of exclusion from the event.

-

If the Entrant considers it opportune, he/she can register a "**spare**" bike, by notifying the Organisers of all the data required for the insurance policies, the cost of which will be EUR 150.00.

Please remember that the "spare" bike must also have the requisites for admission envisaged by Art. 4 of the registration procedures and must be checked in Milan. If you use this bike, you will incur the penalties envisaged by Art. 13 of these Regulations (400 points).

-

The checked bike may be driven only by the registered Entrant who has been checked during the Preliminary Checks. (Administrative Checks + Technical Checks)

In the event of a sidecar team, the only people authorised to be on board are those who are registered and checked during the Preliminary Checks and for whom it will not be possible to exchange qualification.

Entrants are expressly forbidden to exchange registered vehicles.

-

All bikes must be equipped with three number signs with a white background for the "Le Glorioso" and "Storica" categories and a yellow background for the "Sport" category, measuring 27/29 x 22/24 cm.

These signs will **indicate the black entry number, which will be communicated by the Organisers by 31/05/2022.**

N.B.: If, during the preliminary checks in Milan, the Entrant, whose bike is without the three number signs and does not comply with the current Highway Code regulations in force, will be excluded from the event.

Art. 2 CLOTHING

In order to give the event an authentic atmosphere which historically recreates the sports event, **entrants are required to wear suitable clothing for the type of vehicle they intend to enter.** The only exception is a homologated helmet, which is mandatory for the entire event.

Art. 3 ADMINISTRATIVE CHECKS

Entrants will be obliged to attend in person with their registered bike, according to the procedures and time schedules notified by the Organisers, as set out in the Programme. Failure to do so will mean they will be unable to pass the checks and, therefore, take part in the event. The Organisers will conduct the following checks and formalities:

- 1) Final check of the documentation for registered Drivers, Passengers and Supporter with car;
- 2) Hand-over of the material required to participate;

The Administrative Checks may be totally or partially carried out according to the anti-Covid-19 legislation, as established by the competent Government and Health Authorities.

Art. 4 TECHNICAL CHECKS

When the administrative checks have finished, Entrants will have to submit their registered bikes to the technical checks according to the procedures and time schedules in the Programme, under penalty of exclusion from the race, for the following checks:

- 1) check the identification and relevant race number signs are in the correct position, check that lights and horns are suitable for road traffic;
- 2) check that data given at the time of registration matches (year of manufacture and chassis number);
- 3) installation of safety equipment according to Art. 6 of these Regulations;
- 4) application of the "Checked" label;
- 5) provision of the bib with race number and schedule for the first leg.

-

When the administrative and technical checks (Preliminary Checks) have ended, a "Checked" label will be attached to the handlebar column or other fixed part of the bike, which may not be removed from the vehicle, under penalty of exclusion from the race.

Art. 5

FAILED PRELIMINARY CHECKS

If the Entrant fails the administrative and/or technical checks (Preliminary Checks), he/she will be excluded from the actual race, although he/she will have the right to use the hospitality envisaged.

Art. 6

SAFETY EQUIPMENT

The GPS TRACKER provided by the Organisers must remain attached to the vehicle throughout the event. The device must be returned during the Punching operations in Taranto.

Appointed technicians will install the device during the Preliminary Checks and provide the necessary information. Entrants will be asked to sign a disclaimer for any use of the data recorded on the device.

The GPS TRACKER device not only records the Entrant's compliance with the event route, it will also record the vehicle's speed.

The recorded data will be available for the Race Director to enable him to take disciplinary measures over Entrants, who have not complied with the Highway Code and sports regulations, even though further provisions may be taken by members of the police force who have detected a traffic offence.

The data may be made available at the request of the Judicial Authorities.

The Entrant is responsible for the transponder assigned to him/her and if it is damaged or lost, he/she must reimburse the sum directly to the supplier according to the agreement signed with the Event Organisers.

If the Entrant fails to comply with this rule, he/she must pay the Race Director a fine of EUR 250.00.

If an Entrant withdraws during the event, he/she will be obliged to return the device to the Organisers' appointed technicians.

Art. 7

PUNCHING

A "closed area" will be set up on arrival in Taranto for the Punching of the bike, only at the Entrant's request, on the engine block or another part at the Entrant's discretion.

The Organisers decline any liability for any damage.

The Organisers will now collect the GPS tracker.

Art. 8

MECHANICAL ASSISTANCE

A workshop van will accompany riders along the entire route and **will provide straightforward mechanical assistance for which little material and labour is required.**

If the breakdown cannot be resolved, the Entrant must decide whether to use the RECOVERY TRUCK or attempt to resolve the problem alone.

If the Entrant refuses, he/she must sign a disclaimer to relieve the Organisers from failing to provide breakdown emergency and any other liabilities.

-

The Entrant will personally pay the mechanic for more complex work, the use of material and/or spare parts, subject to a suitable quote.

Art. 9

BIKE RECOVERY

The RECOVERY TRUCK will accompany riders along the entire route to recover any broken down bikes. Bike recovery will be **carried out only along the event route and only if not outside "maximum time"**, with transport to the arrival point of the current leg.

The Entrant with a broken down bike must decide when the recovery truck passes at the back of the convoy whether to use their help or attempt to continue with his/her own vehicles.

If the Entrant refuses, he/she must sign a disclaimer to relieve the Organisers from failing to provide breakdown emergency and any other liabilities.

Should Entrants prefer to use different vehicles to those made available by the Organisers, all related costs will be at the Entrants' expense.

-

Any Entrant, who wishes to transport some spare parts and/or tool boxes, may use our Recovery Truck or Workshop Van on a first come first served basis. The Organisers will not be held responsible for any loss of the aforementioned tools.

Art. 10

MAXIMUM TIME

The Entrant from each category (including Tasters) may be considered outside the maximum time as follows:

-Entrants from the Glorioso, Storica and Sport categories will be considered to be outside maximum time if they pass a time check with a delay of 30 minutes compared to their set transit time check.

-Entrants from the Taster category will be considered to be outside maximum time if they pass a time check with a delay of 30 minutes compared to their indicative transit time check.

-

Whoever is outside maximum time without a valid reason will no longer be covered by assistance from the Organisers and will have to take independent measures and pay for the relevant costs.

Art. 11

GENERAL RULES OF CONDUCT FOR SUPPORTER VEHICLES

The organisation reserves the right to grant the adhesive label "SUPPORTER VEHICLE" only and exclusively to those drivers who provide a copy of their driving licence and the vehicle registration number.

This adhesive label allows them to transit and park in the areas reserved for us.

Art. 12

Departure from Milan will be at 12:00 a.m. on 03/07/2022, i.e. 00:00 a.m. on 04/07/2022.

All other departures will be at 8:00 a.m. on days 5-6-7-8-9/07/2022.

The Organisers reserve the right to move up or delay departures due to force majeure.

- 100cc: 3 riders per minute;

Entrants who perform a "push" start from Milan (A "PUSH" START IS WITH THE ENGINE SWITCHED OFF AND BIKE STANDING TO ONE SIDE OF THE ENTRANT) will be awarded 5 bonus points.

If it rains, the push start may be postponed to the departure of another leg at the Race Director's discretion.

Art. 13

TIME AND STAMP CHECKS

By signing the Milan-Taranto registration, each Entrant from every bike category will be obliged to submit to Time and Stamp Checks at the times given on his/her check card without hindering the other Entrants in any way.

The Entrant, who does not comply with these measures, will be disqualified from the event and will not be reimbursed any money whatsoever.

The Organisers reserve the right not to allow the disqualified Entrant to participate in subsequent editions.

Art. 13.1

TIME CHECKS

Every Entrant will receive a check card for each leg, showing the departure times, time checks, stamp checks and arrival times to be followed.

Please remember that each departure is also to be considered as a Time Check (and therefore subject to penalty points).

Entrants will be obliged to comply with the official times of the event as indicated on their check card.

The check cards must be returned to the Organisers' staff on arrival at the leg points or when requested to do so by the Organisers' staff.

If the Entrant is unable to hand over the card when requested for some reason (bike loading or other), he/she will be obliged to leave the card by 7:00 p.m. directly in the hotel, after previously warning the Race Director.

Cards may not be handed in after 7:00 p.m. and the entrant will be given no. 500 penalty points as established by these Regulations.

During the Time Checks, **each Entrant has to pass through the NO STOP zone within the minute stated on his/her card** and will be given 1 penalty point for every minute or fraction of a minute before or after that.

The Time Check zone (NO STOP) will be marked out with appropriate lines to mark the beginning and end and **will vary in length from 5 m to 10 m.**

The NO STOP zone at the Time Check point becomes "active" and, therefore, subject to sanctions when the first competitor departs.

The time will be recorded at the exit line.

The participant inside the NO STOP zone cannot stop, put his foot down or cross with the engine switched off.

Only the current Entrant is allowed to stop in or transit the NO STOP zone. The penalties established by Art. 13 of these Regulations will be applied to whoever obstructs the other teams in any way.

Once the Entrant has passed the Time Check line, he/she will have completed his/her test.

The Time Check staff will not write the times on the cards. Instead, they will record them on special printed forms, which can be seen after the Entrant has parked far from the NO STOP zone.

The Entrant will not be restricted in any way from using time measurement equipment. The latter may be synchronised with the clock on the Organisers' table at each time check point.

Any defect in time recording due to the equipment failing to function or functioning incorrectly may result in it being annulled.

Art. 13.2

TIME CHECKS TO ONE HUNDRETH OF A SECOND (SPECIAL TESTS)

During the 2nd, 3rd, 4th, 5th and 6th leg, there will be two **Time Checks timed to 100th of a second** per day and the transit time will be measured by a photocell and/or pressure gauge.

Once the Entrant has passed the exit line in the NO STOP zone, he/she must not stop in order not to spoil the next Entrant's time.

The times will not be written on the cards. Instead, they will be printed on forms and may be seen after the Entrant has parked far from the NO STOP zone.

The first 10 in each category in each special test will have the following bonus points:

1 st place	-15 points
2 nd place	-13 points
3 rd place	-10 points

Art. 13.3

Secret TIME CHECKS

If the Organisers consider it opportune, they reserve the right to conduct a **Secret Time Check**, the result of which will be final.

Art. 13.4

STAMP CHECKS

The opening and closing times for the Stamp Checks will be written on the check card for the current leg.

The Stamp Check (seen passing) will be conducted by the Organisers' staff.

To carry out the Stamp Check, Entrants must stop the bike to allow the stamp check to be stamped in the special place on their card. Without it they will be given 50 penalty points.

Art. 15

"COEFFICIENT 37"

The "Coefficient 37" (in remembrance of the race number used at the time by the founder of the Milan-Taranto) will be applied to transform the penalties each Entrant has acquired during the event.

The final sum of all the penalties obtained by each Entrant (or team, if it is a sidecar or cyclecar) will be multiplied by the coefficient assigned to the Entrant.

This will be assigned ONLY in the event of joint winners, using the following equation.

In the event of an equal number of penalties or positive total: Entrant's year of birth x 37/1000.

1st Example

- Entrant's year of birth 1940
- Coefficient 37: $(40 \times 37 / 1000) = 1.48$
- Entrant's hypothetical penalty: 500
- Final score: $500 \times 1.48 = 740$

2nd Example

- Entrant's year of birth 1960
- Coeff. 37: $(60 \times 37 / 1000) = 2.22$
- Entrant's hypothetical penalty: 500
- Final score: $500 \times 2.22 = 1,110$

In the event of an equal number of bonus points or negative total: Entrant's age x 37/1000.

1st Example

- Entrant's age 82
- Coefficient 37: $(82 \times 37 / 1000) = 3.03$
- Entrant's hypothetical penalty: -15
- Final score: $-15 \times 3.03 = -45.45$

2nd Example

- Entrant's age 62
- Coeff. 37: $(60 \times 37 / 1000) = 2.29$
- Entrant's hypothetical penalty: -15
- Final Score: $-15 \times 2.29 = -34.35$

Art. 16

"TASTER" CATEGORY

By registering in this category, Tasters are **responsible for judging the local specialties tasted at the refreshment points along the route from Milan to Taranto**. They will all be given a card to write down their impressions and judgements on the specialties offered, and give a mark from 0 to 10.

The card will also include:

- their check card (with the approximate times they must pass the points in each location);
- a series of pre-cut slips depending on the number of time checks during the day;

When the Tasters reach the Time Check Points, they must park their bikes far away from the No Stop zone and walk to the Organisers' table to hand in the pre-cut slip for that check to the Time Check assistants. This will be proof of "seen passing".

The mandatory identification bib must be worn.

The complete cards containing the evaluation of the refreshments proposed during the leg must be handed in at the end of each leg or when requested by the Organisers' staff.

The Entrant who does not comply with these measures will be disqualified from the event and will not be reimbursed any money whatsoever.

The Organisers reserve the right to not allow the disqualified Entrant to participate in subsequent editions.

Art. 28

POSTPONEMENT, CANCELLATION AND/OR SUSPENSION OF THE EVENT DUE TO THE COVID-19 PANDEMIC AND FORCE MAJEURE

The Organisers reserve the right at any time and at their discretion to postpone, cancel and/or suspend the event if the Covid-19 health emergency situation persists, or should any unpredictable, extraordinary facts occur, for which they cannot be held responsible. These include, although they are not restricted to new epidemics, provisions taken by the authorities, earthquakes, floods or sudden climate changes, which make it impossible to hold all or part of the event.

Art. 29

COVID-19 HEALTH EMERGENCY AND FORCE MAJEURE:

More specifically, the Entrant acknowledges the current, exceptional situation in Italy and in the world due to the Covid-19 pandemic, and the fact that it is currently impossible to predict either how the pandemic will develop or whether the competent Government and Health authorities will implement any emergency measures at any time. Like all sports and amateur events and including, therefore, motorcycle commemorative events, the historic Milan-Taranto event will also be obliged to observe the common, minimum health precautions to prevent the spread of Covid-19.

The Organisers will have to assess the event and identify the necessary measures to contain and protect for risk management after an accurate analysis of the specific activities carried out (in this case travelling between numerous refreshment points).

Measures will have to be taken on the basis of the specific activities that have emerged from the risk analysis, bearing clearly in mind that prevention and protection measures are understood to be the MINIMUM requisites to prevent the spread of this current epidemic.
